7

Learn about go-to-market strategies and fund raising for your startups

8

Manipal alumni status

Testimonials

Bharath

“As an engineering graduate, I’ve always been driven by entrepreneurship. That’s why I pursued a course in product development, which led me to launch my own coffee brand, Coffee NAD. I was inspired by my grandparents, who were successful entrepreneurs for over 30 years, managing multiple businesses. However, I struggled with finding people who could guide me on how to build a brand which is why I chose to pursue this Entrepreneurship and Innovation program from MAHE. Manipal has always been known for excellent education. It provided me with a hybrid education model where I could collaborate while continuing my online education.”

**Deepti
Balasubramanian**

“I am an architect from Chennai and have handled over 90 projects in my career. While strong technically, I joined the entrepreneurship program to improve business, marketing, lead generation, and financial skills. As an entrepreneur in architecture, it’s challenging to identify and reach the right target audience amidst tough competition. Since I do not have a family business background, MAHE’s Entrepreneurship and Innovation program helped me gain strong business skills that I previously lacked. The course has significantly improved my understanding of market criteria, competition, and ways to position my company to come out on top.”

Harsha

“I have a background in nuclear medicine physics for 5 years. However, my true passion lies in fashion, which is why I am launching my own clothing brand called Kreigster. I came upon the Entrepreneurship and Innovation program while job-hunting in Australia and finally decided to pursue my passion. I am also a Manipal alumnus, hence can vouch for its standards and trust the university. The online format provided me with the same opportunity and quality that traditional education does. Being an entrepreneur is tough because you can never really predict the challenges and obstacles, it’s always new and surprising. I have learnt to overcome these challenges through the Entrepreneurship and Innovation course.”

Shailendra Vyas

“A Botanist by training, I specialize in Molecular Biology and Genomics. My startup aims in developing personalized interventions to identify causes of premature deaths and promote healthy longevity by integrating ML, Biology, and Genomics. For me, entrepreneurship is neither a cakewalk nor impossible. I believe that it requires passion, consistent effort, and adaptability. My 6 years in business taught me development but I lacked the knowledge of market-fit, delivery strategy, and revenue generation. I chose MAHE’s Entrepreneurship and Innovation program to overcome this challenge. It addressed my need to understand the business comprehensively beyond management, from ideation to delivering value to consumers. My mentor, Sanjeev, has provided me with the best take-home knowledge I could get.”

Sample certificate

Globally recognized and widely accepted by governments and organizations, the online PG diploma programs offered by Manipal Academy of Higher Education open doors to better professional opportunities.

Get onboard

Program registration

Fill in your basic, education & work experience-related details and pay the application fee to register.

Fee payment

Pay the admission fee for the first semester or full program.

Document upload

Upload supporting documents & submit your application.

University approval

About Manipal Academy of Higher Education

Started in 1953 with Kasturba Medical College, Manipal Academy of Higher Education (MAHE) is one of India's leading academic and research institutions. It is a globally engaged institution with active partnership with more than 250 leading universities around the globe. And it enjoys the status of 'Institution of Eminence' granted by the Ministry of Education, Government of India. It is amongst the handful of private institutions in India to have received this prestigious recognition, further accentuating its status as a world-class institution for higher education.

MAHE now offers online higher education programs to students. MAHE's online degrees and certificates are UGC-entitled and NAAC A++ accredited and on par with on-campus programs. Government agencies, corporate organizations, and educational institutions widely recognise MAHE's online degrees and certificates for jobs and higher education.

Flagship institutions of MAHE:

Kasturba Medical College (KMC) | Manipal Institute of Technology (MIT)

Welcomgroup Graduate School of Hotel Administration | T.A. Pai Management Institute
